Red Moon

Level 9 Computing

A Magical adventure game with 200 pictures on most micros (check the gold label):

Level 9 Computing specialise in big adventures with over 200 locations, detailed scenery and interesting storylines. This means more enjoyment for you and we'll send a free cluesheet if you get stuck.

All adventures have SAVE and RESTORE commands for the state of play and graphic games have PICTURES and WORDS to turn graphics on and off. This game has graphics on most micros, but don't worry if the version for your micro is pure-text. The puzzles are the same and there is more room for longer messages.

The game, Red Moon, re-enacts a tale from the time where Magik still worked and when mythical monsters guarded fabulous treasure.

You have the use of many weapons and a dozen different magical spells to help you rescue the Red Moon Crystal, only source of Magik in the land.

For more about the game, read the other side of this cover sheet.

Here's what reviewers have said about Level 9.
